Newport Beach-based The Saywitz Company, one of the largest privately held commercial real estate brokerage firms in Southern California, was recently selected as one of the “2014 Best Places to Work in Orange County.” The awards program was created in 2009 by the *Orange County Business Journal* and Best Companies Group.

The county-wide survey and awards program was designed to identify, recognize and honor the best places of employment in Orange County, which benefits the county’s economy, its workforce and businesses. In order to be considered for participation, companies had to fulfill the following eligibility requirements: Have at least 15 employees working in Orange County; be a for-profit or not-for-profit business or government

entity; be a publicly or privately held business; have a facility in Orange County, and must be in business a minimum of one year.

Companies from across the county entered the two-part process to determine the “2014 Best Places to Work in Orange County.” The first part consisted of evaluating each company’s workplace policies, practices and demographics. This part of the process was worth approximately 25% of the total evaluation. The second part consisted of an employee survey to measure the employee experience. This part of the process was worth approximately 75% of the total evaluation. The combined scores determined the top companies and the final ranking. Best Companies Group managed the overall registration and survey process in Orange County and also analyzed the data and used their expertise to determine the final ranking.
